**Subject:** Case No. 2008-00128

Andrew Melnykovich  
Director of Communications  
Re: Public Comment in Case No. 2008-00128

Recycled Energy Development (RED) seeks to build cogeneration and waste-heat-recovery projects in Kentucky. RED, therefore, is interested in receiving a fair price for any heat and power it might generate and sell to EKPC or other Kentucky-based utilities. In that regard, I believe RED's future economic interest would be advanced by the participation of Geoffrey Young as a full intervenor in Case No. 2008-00128.

Thank you for your consideration and help.
